SPORTIVE BREAKS

2027 Bike Rental

Domane SL 6 AXS 5th gen.

The Trek Domane SL 6 AXS Gen 5 is a lightweight endurance road bike built for long rides, fast group rides and rougher roads. Its 500 Series OCLV Carbon frame combines stable endurance geometry with rear IsoSpeed compliance and integrated storage, helping reduce road vibration while keeping the bike efficient and responsive.

A wireless SRAM Rival AXS 2x12 drivetrain provides precise electronic shifting, while hydraulic disc brakes deliver confident stopping power in all conditions. Tubeless-ready wheels and a comfortable Bontrager cockpit complete a versatile setup that's ready for everything from everyday training rides to long-distance adventures.
